

Hoehn's Concordance to  
The Holy Bible,  
Hoehn Version

Preface:

A concordance assists in finding scripture verses in the Bible if you remember some of the words.

For example, you might remember "Delight yourself in the Lord" from Psalm 37:4, but not remember where that is in the Bible. So, look up delight, and one of the places that is found, is Psalm 37:4, which says:

"Delight yourself also in the Lord, and he'll give you the desires of your heart."

But not every Bible word can be listed in the concordance, because the most common words in our language are too numerous. You wouldn't want to look through thousands of scriptures, even if the word "the" were listed. So, you look under a less common word.

Three-character abbreviations are used in the listings for each of the sixty six books in the Bible. Here is the list:
