Introduction

The late war has emphasized the importance of music as a necessity of life. The call for more orchestras and military bands has become insistent.

To meet this demand, selected individuals must be trained to play band and orchestral instruments and to take their places in musical organizations.

This teaching must necessarily be in class form, such as is in operation in our violin classes.

In order to do this work properly, certain requirements must be met. First, the class should be few in number and its members able physically, mentally and musically, to undertake the study. Moreover, they should be good letter-name readers, this is a matter of importance.

Secondly, the instructor must not simply be a good performer, but a teacher with a reserve of patience, tact and resource.

Thirdly, a specially designed book prepared for the purpose of group teaching is necessary. It must be pedagogical and simple. It should also recognize two important factors, limitations of the pupil and the time allowed for the work by the Course of Study. Above all things the book must be intensive and direct in its teaching, a discursive method is a heavy handicap.

This type of Class Method for the Cornet endeavors to fulfill these requirements.

Taking into account the fact that the pupils will eventually become members of an orchestra, serious attention has been given to the preparation for this work. Orchestral extracts form part of almost every chapter, and to further emphasize the prime importance of this side of the pupils' musical education, an Appendix has been entirely devoted to the subject.

To sum up: Given the right kind of pupils; a trained and sympathetic teacher; and a Text-book made to fit conditions, it is not unduly difficult to teach, in class form, the elementary playing of orchestral instruments.

The Rudiments of Music

The Staff  is made up of five lines and four spaces. Lines and spaces above and below the staff are called added lines and spaces.

Each line and space represents a sound.

Notes are symbols of tone duration, they have nothing to do with pitch. "Pitch" is another word for sound.

The G, or treble clef  is so called because its principal curve encompasses the G line of the staff.

The first seven letters of the alphabet are used to name the staff degrees, the lines and spaces.

THE NAMES OF THE STAFF DEGREES

NOTES AND THEIR CORRESPONDING RESTS

- | | |
|---|---|
|  Whole-note, equals 4 beats or counts. |  Whole-rest, equals 4 beats or counts. |
|  Half-note, equals 2 beats or counts. |  Half-rest, equals 2 beats or counts. |
|  Quarter-note, equals 1 beat or count. |  Quarter-rest, equals 1 beat or count. |
|  Eighth-note, equals $\frac{1}{2}$ beat or count. |  Eighth-rest, equals $\frac{1}{2}$ beat or count. |
|  Sixteenth-note, equals $\frac{1}{4}$ beat or count. |  Sixteenth-rest, equals $\frac{1}{4}$ beat or count. |

MEASURES AND BARS

A bar is a line drawn through the staff. The space between two bars is a measure. A double bar shows the end of a section and also the end of a piece.

SHARPS, FLATS AND NATURALS

A Sharp (#) changes the pitch of any staff degree to one a half-step, or semitone higher.

A Flat (b) changes the pitch of any staff degree to one a half-step, or semitone lower.

A Natural (n) restores the pitch of a staff degree which has been changed by a sharp or a flat.

KEY SIGNATURES

A group of sharps or flats placed immediately after the clef and at the beginning of every line is termed the Key Signature. It shows which degrees (lines and spaces) are to be changed so as to conform to the proper construction of the scale. One key (C) has no sharps or flats in its signature. It is called the Open Key. Sharps or flats which do not belong to the key are known as Accidentals, or Chromatic tones.

TIME SIGNATURES

All time signatures are fractions. The upper figure is the numerator, the lower the denominator. The denominators in modern music are 4; which represents a quarter-note (); and 8; which represents an eighth note (). Other numbers, 2 and 16 are used. Therefore, $\frac{4}{4}$ signifies four quarter-notes in a measure; $\frac{2}{4}$ two quarter-notes in a measure; $\frac{3}{4}$ three quarter-notes, $\frac{3}{8}$ three eighth-notes; $\frac{6}{8}$ six eighth-notes; $\frac{9}{8}$ nine eighth-notes. The Common time sign (C) is also represented by $\frac{4}{4}$.

EMBELLISHMENTS

THE TRILL

THE TURN

THE GRACE NOTE

TO THE PUPIL

TONE PRODUCTION

Grasp the instrument firmly around the valve casings with the thumb and fingers of the left hand. Place the right thumb against the casing of the 1st valve, putting the tips of the 1st, 2nd and 3rd fingers on the valve buttons. The little finger rests on top of the tube.

The instrument should be held horizontally.

The mouthpiece is placed in the middle of the lips. It should not be pressed violently against them; if it is, the freedom of the tone will be prevented. Therefore, discover by practice just the amount of pressure needed against the free lips and the teeth.

Both lips vibrate, but the upper one more than the lower.

When starting the tone, the tongue must be drawn sharply back from the teeth as if pronouncing ("tu") as in the word *tun*.

Breathe through the corners of the mouth when playing. Breathing through the nose is too slow for keeping the lungs properly filled.

There is no danger in filling the lungs full of air, but there is much danger in trying to play without having previously inhaled, as beginners often do. Raising the shoulders does not make the least addition to the intake of air. Fill up the chest just as soldiers and sailors are taught to do.

Puffing out the cheeks shows the beginner. No experienced player does so.

High tones, which should be left alone until the lips are strong and the breathing developed, call for a large breath and firm lip pressure, and a pronounced articulation ("tu") of the tongue. Low tones call for looser lips and a lighter breath pressure.

Should the tongue make a violent stroke and the breath be uncontrolled, a brassy ear-splitting tone will result. It takes time, thought and practice to produce a smooth, round musical tone. Soft tones are invariably agreeable; therefore, every effort must be made to produce this desirable quality. Do not forget your numerous friends' comfort when practicing. For part of the time place a mute in the bell and tie it in with a piece of narrow tape.

CARE OF INSTRUMENT

There is no excuse for a dirty, odorous instrument; no self-respecting musician has such a thing. To keep the tubes sweet and in a sanitary condition, rinse out the instrument twice a week with warm water. Place the mouthpiece now and then in boiling water for five minutes. When cleaning the valves unscrew them very carefully, wipe them with a clean cloth, and with a small paint brush, paint them with specially prepared valve oil. In replacing the valves do not force them in; feel the way gently. Unless the valves work smoothly and rapidly one cannot play.

ABOUT THE SLIDES

Occasionally remove them, wipe clean, and rub a *little* vaseline on them. When removing and replacing them keep the valves down.

Never use another player's mouthpiece, nor permit him to use yours, for contagion is possible.

TO THE TEACHER

With our all too limited time we cannot afford to follow any procedure which does not concentrate the pupils' efforts. Directness should be the watchword.

Repetition also is necessary to rivet the attention and to drive home the desired point.

The author has found that for drilling purposes a chart is superior to printed exercises, many of which do not contain the problem to be solved at the particular time. Furthermore, by employing drill charts, space is released in the book for a large amount of melodic material. Also, any rhythmic or tonal difficulty encountered should be transferred to the chart and the battle fought out.

THE DRILL CHARTS AND HOW TO USE THEM

The charts may be drawn to as large a scale as possible upon a blackboard, or they may be made upon white paper and pasted upon thick cardboard such as is used for maps. A thin pointer is needed. A long dowel answers the purpose admirably.

The author, for ease in transportation from school to school, has both charts painted upon blackboard cloth with rollers at the top and bottom. When in use, the charts are placed back to back upon a stand made by the pupils of the manual training class. To protect them from the weather they are enclosed in a long narrow bag.

(No attention is paid, when passing along the street, to the envious looks of any one who erroneously concludes that the author is faring forth upon a fishing excursion.)

When drilling upon chromatics, the teacher must say, "Sharp!" "Flat!" or "Natural!" as the case may be, pointing at the same time to the line or the space which is to be changed.

A few chart exercises should form part of each lesson. Toneless finger exercises are excellent.

For drill in note values, use but one sound, G for instance. For rhythmic purposes use scale forms chiefly. (See "Typical chart exercises" Appendix B). Drill in chromatic inflections need not be given in rhythmic form. Give one thing at a time. Tap the notes which are to be made "Staccato!" For slurred groups, move the pointer from note to note, or over a series of notes, in imitation of a curve, saying "Slur!" If no words are used the tones are to be played in the ordinary fashion, tonguing each tone *but not in a disconnected, spasmodic manner*, something which beginners are prone to do. To emphasize the importance of keeping in mind the key signature, the symbols forming it are placed before each degree affected. Use the rests freely.

ABOUT TUNING, AND TRANSPOSING

If the exercises and melodies are accompanied, the cornet must be tuned to the piano, which is likely to be below pitch.

Call for open G, which should be made to accord with the piano F by drawing out the open tones slide.

Next, the first space F, played by the first valve, must be tuned to E $\flat$ of the piano. Draw the first slide to lower the pitch.

The third valve A should agree with the piano G. If it does not do so, draw its slide.

The second valve can be changed but little.

Even with all this, certain tones will be out of tune. No cornet is perfectly in tune, many sounds need humoring.

Every piece of music in this book is written for a Bflat instrument; therefore, every tone is written a whole step higher than its actual sound. Transpose by playing the piano tones a whole step lower.

SIZE OF CLASS, etc.

It is not desirable to organize a large class.

In the early lessons, time will be saved by having individual instruction for a goodly part of each period.

A paperoid mute for use in the first stages, although making the instrument a little harder to blow, on account of the air "backing up," will save the teacher's nerves.

Nothing will be gained, but something may be lost by attempting too much at once. Time must be allowed for muscles to strengthen and for practice in reading from fixed pitches. The question of reading suggests the choosing of candidates who have had some musical experience.

Chapter I

1

THE WHOLE-NOTE ($\overset{1234}{\text{C}}$) THE WHOLE-REST ($\overset{1234}{\text{—}}$) EXERCISES IN $\frac{4}{4}$ TIME (Consult "Rudiments of Music")

Play gently and softly. Tongue ("tu") each tone. Count strictly. The line over the counting numerals helps to show the duration of the note. A line connecting two or more fingering numerals shows that the finger remains on the valve. The commas (,) indicate the breathing places. Take breath also when rests occur. The two dots placed before the double bar shows that the music is to be repeated.

EXERCISES

Exercise 1: Treble clef, 3/4 time. Notes: C (quarter), D (dotted half), E (quarter), C (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. Repeat sign.

Exercise 2: Treble clef, 3/4 time. Notes: C (quarter), B (dotted half), C (quarter), E (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. Repeat sign.

Exercise 3: Treble clef, 3/4 time. Notes: C (quarter), B (dotted half), C (quarter), E (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. Repeat sign.

Exercise 4: Treble clef, 3/4 time. Notes: C (quarter), B (dotted half), C (quarter), E (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. Repeat sign.

Exercise 5: Treble clef, 3/4 time. Notes: C (quarter), B (dotted half), C (quarter), E (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. Repeat sign.

Exercise 6: Treble clef, 3/4 time. Notes: C (quarter), B (dotted half), C (quarter), E (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. Repeat sign.

Exercise 7: Treble clef, 3/4 time. Notes: C (quarter), B (dotted half), C (quarter), E (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. Repeat sign.

Exercise 8: Treble clef, 3/4 time. Notes: C (quarter), B (dotted half), C (quarter), E (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. Repeat sign.

Exercise 9: Treble clef, 3/4 time. Notes: C (quarter), B (dotted half), C (quarter), E (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. Repeat sign.

Exercise 10: Treble clef, 3/4 time. Notes: C (quarter), B (dotted half), C (quarter), E (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. Repeat sign.

MELODY

Exercise 11: Treble clef, 3/4 time. Notes: C (quarter), D (dotted half), E (quarter), C (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. Repeat sign.

MELODY

Exercise 12: Treble clef, 3/4 time. Notes: C (quarter), D (dotted half), E (quarter), C (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. A breath mark is placed above the dotted half note. Repeat sign.

ORCHESTRAL STUDIES

(see foot-note)

(Breathe at the rests)

Exercise 13: Treble clef, 3/4 time. Notes: C (quarter), D (dotted half), E (quarter), C (quarter). Fingerings: 1 2 3, 1 2 3, 1 2 3. A breath mark is placed above the dotted half note. Repeat sign.

Note: The purpose of these short characteristic studies is to introduce the student to orchestral music.

Exercises 15 through 20 for cornet. Exercises 15-16 are in 3/4 time, and 17-20 are in 4/4 time. Fingerings are indicated by numbers 1, 2, 3, and 4 below the notes. Exercises 15-16 and 17-18 are marked with repeat signs.

Chapter V

THE EIGHTH-NOTE (♪)

Two eighth-notes, in duration, equal one quarter-note. $\frac{2}{4}$ time, two quarter-notes or their equivalent in a measure.

(Consult "Rudiments of Music")

When playing two eighth-notes to a beat, think of the word "gently."

EXERCISES

Exercises 1 through 10 for eighth-note playing. Exercise 1 is marked "Tongue neatly" and "gently gently". Exercises 4, 5, 6, 7, 8, 9, and 10 are marked with repeat signs. Exercise 7 is marked "Not fast". Fingerings are indicated by numbers 1, 2, 3, and 4 below the notes.

French Folksong

Exercises 11 and A for French Folksong. Exercise 11 is in 2/4 time. Exercise A is in 4/4 time. Fingerings are indicated by numbers 1, 2, 3, and 4 below the notes.

1st Repeat 2d

dim. *cresc.*

Omit these measures
when playing the 2d time

1st Note: A chord is the union of two or more sounds heard at the same time. When these sounds are played one after the other they are described as "broken chords." Still, musicians quite freely speak of "chords," meaning thereby "broken or separated chords." Obviously, no brass instrument can play two or more tones at the same time.

2d Note: When it is desired to lengthen a note, another of the same pitch-name is *tied* to it. Both notes are in the same space, or on the same line; unlike slurred tones, they do not move.

SIX EIGHTH-NOTES, OR THEIR EQUIVALENT IN A MEASURE (♩♩♩♩♩♩)

When playing slowly, it is the custom to give a beat to each eighth-note. When playing quickly one beat is given for every three eighth-notes, or their equivalent. The word "mer-ri-ly" will give the rhythm of three eighth-notes to a beat.

Chapter XV

THE SLUR (~)

The slur, always shown by a curved line under or over a group of two or more notes, indicates that the performer is to play the tones smoothly and connectedly. The first tone of each group is *longued*, but not the following tone, or tones. The breath pressure is continuous.

PREPARATORY DRILLS

Row, Boys, Cheerily Row

AMERICAN EMIGRANT SONG

MULOCK

First section of the musical score for 'The Farrier's Song'. It consists of three staves of music in G major (one sharp). The first staff begins with a forte (*f*) dynamic, followed by a mezzo-piano (*mp*) section with fingerings 1, 1/2, and 2. The second staff is labeled 'CHORUS' and starts with a mezzo-piano (*mp*) dynamic, ending with a forte (*f*) dynamic. The third staff continues the melody with a mezzo-piano (*mp*) dynamic, ending with a forte (*f*) dynamic.

The Farrier's Song

BERNARD MILTON

Second section of the musical score for 'The Farrier's Song'. It begins with a 'Maestoso' tempo marking and a 4/4 time signature. The first staff starts with a mezzo-forte (*mf*) dynamic and includes fingerings 1, 2, 3, 4, 1, 1/2, 2, 3, 1/3, and 3. A circled 'A' is placed above the staff. The second staff includes a circled 'B' at the end. The third staff continues the melody. The fourth staff features a 'poco rit.' (poco ritardando) marking, followed by a '3/4' time signature change and an 'a tempo' marking. The fifth staff continues the melody. The sixth staff includes a 'marcato' (marked) marking, followed by a 'rit.' (ritardando) marking and an 'a tempo' marking. The seventh staff continues the melody. The eighth staff includes a 'cresc.' (crescendo) marking and a 'rit.' (ritardando) marking. The score concludes with a final staff.

HALF- (MEZZO-) STACCATO, OR, TONGUING IN THE SOUND

Information. Groups of notes having dots and a slur over them or under them are played in a half connected, half disconnected manner.

Tonguing in the sound is an expression to describe the action of the tongue when playing half staccato passages. The Italian word for this effect is *Portato*— carrying over the sound.

Directions. Tongue the first tone *tu* and, without breaking the tone, play all the succeeding tones with *du*, pronounced as in double. Imagine that the tones are like so many beads of a necklace.

TENUTO TONES

Information. *Tenuto* is an Italian word meaning *hold tenaciously*, in familiar words *to sustain*. The sign (when the syllable *ten.* is not used) is a dash placed near the head of the note.

Directions. Make a broad, generous tone, giving the note its full duration.

Chapter XVII

KEY OF F, 1 FLAT, B FLAT. SCALE OF G, 1 SHARP, F SHARP.

When playing the higher tones, do not press the mouthpiece against the lips and teeth unduly. The lips must be free so that they can vibrate. Tongue the high tones a little sharply, draw in the corners of the mouth so as to tense the muscles of the lips. Do not blow out the cheeks.

PHRASING

Information. Phrasing is the executing, as a unit, of a part, or the whole, of a musical sentence. Musical sentences are divided and sub-divided into Sections, Half-sections, Periods and Measure groups. In piano music curved lines are used showing graphically these divisions. In cornet music the longer divisions are shown by breathing commas, or rests. If the music does not contain these signs the student must discover for himself where the phrases begin and end. The Accent of a phrase is important. (Consult a Musical Dictionary for *Accent*.) Below are given some examples of measure phrases.

Directions. Play each phrase with one articulation. Make the last note a little shorter than the others in the group. Take breath at the rests and at the commas.

Chapter XIX

SYNCOPIATION

In music there are strong and weak accents. In $\frac{4}{4}$ time the strong accents occur on the first and third beats, the weak accents are the second and fourth. When a strongly accented tone takes the place of a weakly accented one, a Syncopation is made. As a rule, syncopated tones are played a *little* louder than the other tones. To make sure that this is done a particular sign (>) is frequently placed over, or under the note. Additional examples of syncopation may be found in Chapter XXIII, Section 2, Nos 1, 4, 6 & 9

CHORUS

f Small notes ad lib. *ff* *rit.* *marcato*

This musical score is for the piece 'When Good Fellows Get Together' by Frederic Field Bullard. It is written for a cornet, indicated by the circled number 2. The key signature has two sharps (F# and C#), and the time signature is 4/4. The tempo is 'Andante con moto'. The score begins with a piano introduction marked '(Piano) f marcato'. The main melody starts with a 'Cor.' (Cornet) part marked 'mf'. There are four measures of music before the first measure of the chorus, which is marked with a first ending bracket (1 2 3 4). The chorus begins with a forte 'f' dynamic and includes the instruction 'Small notes ad lib.'. The piece concludes with a 'ff' (fortissimo) section, a 'rit.' (ritardando) section, and a final 'marcato' section.

Juanita

③ *Andante* *mp*

cresc. *dim.* *cresc.* *dim.* *rit.*

p *3* *3*

This musical score is for the piece 'Juanita'. It is written for a cornet, indicated by the circled number 3. The key signature has one flat (Bb), and the time signature is 3/4. The tempo is 'Andante'. The piece begins with a mezzo-piano 'mp' dynamic. The melody features several dynamic markings: 'cresc.' (crescendo), 'dim.' (diminuendo), 'cresc.', 'dim.', and 'rit.' (ritardando). The score includes two first endings, labeled A and B. The piece concludes with a piano 'p' dynamic and a triplet of eighth notes.

Dixie

Count quickly

Musical score for 'Dixie' in 2/4 time. The score consists of three staves. The first staff begins with a 'Count quickly' instruction and includes fingerings (1-4) and a circled 'A' with a 1-2-3-4 sequence. The second staff includes a first ending (1st) and a second ending (2d) marked with a circled 'B', followed by fingerings and a 1-2-3-4 sequence. The third staff continues the melody with fingerings and a 1-2-3 sequence.

Chapter XXIII

HIGH AND LOW TONES

Musical score for 'Chapter XXIII: HIGH AND LOW TONES' in 4/4 time. The score consists of four staves, each starting with a circled number (1, 3, 5, 7) and ending with a circled number (2, 4, 6, 8). The music features various intervals and fingerings (1-4) indicated below the notes. The key signature changes from one sharp (F#) to two flats (Bb, Eb) between the second and third staves.

The Star-Spangled Banner

(SERVICE VERSION)

J. STAFFORD SMITH

Boldly

Musical score for 'The Star-Spangled Banner (Service Version)' in 3/4 time. The score consists of three staves. The first staff begins with a 'Boldly' instruction and a forte (f) dynamic marking. The music includes fingerings (1-3) and a 1-2-3 sequence. The second staff continues the melody with fingerings and a 1-2-3 sequence. The third staff includes fingerings and a 1-2&3 sequence.

The musical score for 'The Rose Tree' is presented in three systems, each with a grand staff (treble and bass clefs). The key signature is one flat (B-flat major or D minor), and the time signature is 4/4. The first system is marked with a circled '6' and a piano (*mp*) dynamic. The second system is marked with a mezzo-forte (*mf*) dynamic. The third system includes a *rit.* (ritardando) marking. Fingerings are indicated by numbers 1-4 above notes and 1-2 below notes. The melody is primarily in the treble clef, with the bass clef providing harmonic support. The piece concludes with a final cadence in the third system.

ORCHESTRAL EXERCISES

The image displays a musical score for 16 exercises, numbered 1 through 16, arranged in eight staves. Each exercise is written for a single melodic line, likely for a Cornet as indicated by the footer. The exercises vary in key signature and time signature:

- Exercise 1:** Key of D major (one sharp), 3/4 time. Features a triplet of eighth notes.
- Exercise 2:** Key of D major (one sharp), 3/4 time. Features a triplet of eighth notes.
- Exercise 3:** Key of D major (one sharp), 3/4 time. Features a triplet of eighth notes.
- Exercise 4:** Key of D major (one sharp), 3/4 time. Features a triplet of eighth notes.
- Exercise 5:** Key of E major (two sharps), 4/4 time. Features a triplet of eighth notes.
- Exercise 6:** Key of E major (two sharps), 4/4 time. Features a triplet of eighth notes.
- Exercise 7:** Key of E major (two sharps), 4/4 time. Features a triplet of eighth notes.
- Exercise 8:** Key of B major (two sharps), 3/4 time. Features a triplet of eighth notes.
- Exercise 9:** Key of B major (two sharps), 3/4 time. Features a triplet of eighth notes.
- Exercise 10:** Key of B major (two sharps), 3/4 time. Features a triplet of eighth notes.
- Exercise 11:** Key of B major (two sharps), 3/4 time. Features a triplet of eighth notes.
- Exercise 12:** Key of B major (two sharps), 3/4 time. Features a triplet of eighth notes.
- Exercise 13:** Key of B major (two sharps), 3/4 time. Features a triplet of eighth notes.
- Exercise 14:** Key of B major (two sharps), 3/4 time. Features a triplet of eighth notes.
- Exercise 15:** Key of B major (two sharps), 3/4 time. Features a triplet of eighth notes.
- Exercise 16:** Key of B major (two sharps), 3/4 time. Features a triplet of eighth notes.

The score includes various musical notations such as treble clefs, key signatures, time signatures, and dynamic markings. The exercises are designed to be played sequentially.

Four staves of musical notation in treble clef, each containing exercises numbered 17 through 24. The exercises are written in 6/8 time and use a key signature of one sharp (F#). Exercise 17 features a triplet of eighth notes. Exercise 18 has a fermata over a half note. Exercise 19 includes a first ending bracket. Exercise 20 has a triplet of eighth notes. Exercise 21 features a first ending bracket and a triplet of eighth notes. Exercise 22 has a triplet of eighth notes. Exercise 23 has a first ending bracket. Exercise 24 has a first ending bracket.

Appendix B

TYPES FOR USE WITH CHART N°1 (MONTONIC RHYTHM)

Note: Any tone may be used. Work upon rhythm should precede the dictating of scale and chord progressions.

Three staves of musical notation in treble clef, each containing exercises numbered 1 through 17. The exercises are written in 4/4 time and use a key signature of one sharp (F#). Exercise 1 has a first ending bracket. Exercise 2 has a first ending bracket. Exercise 3 has a first ending bracket. Exercise 4 has a first ending bracket. Exercise 5 has a first ending bracket. Exercise 6 has a first ending bracket. Exercise 7 has a first ending bracket. Exercise 8 has a first ending bracket. Exercise 9 has a first ending bracket. Exercise 10 has a first ending bracket. Exercise 11 has a first ending bracket. Exercise 12 has a first ending bracket. Exercise 13 has a first ending bracket. Exercise 14 has a first ending bracket. Exercise 15 has a first ending bracket. Exercise 16 has a first ending bracket. Exercise 17 has a first ending bracket.

TYPES FOR USE WITH CHART N^o 2

Note: To economize space only a few tones of the scale of C are given. The other tones must be added if the compass permits. The tones below the tonic should not be forgotten. Transpose into other keys. Use the minor forms. When dictating count the time, giving a pronounced stress to the accent, to show clearly if the time is duple, triple or quadruple.

CLASS METHODS

By ALBERT G. MITCHELL, MUS. DOC.

Assistant Director of Music, Boston Public Schools

THESE books embody the active school-room and studio experience of ten years employed in teaching more than four thousand children of various ages, and in training grade and private teachers.

They have been adopted as part of the curriculum in many cities, and are in use in the summer schools of several universities and have been selected as text-books in the United States Government's Education and Recreation Department.

CLASS METHOD FOR THE VIOLIN

BOOK I—FIRST POSITION, \$1.25

BOOK II—MORE ADVANCED, \$1.25

A TEACHER'S MANUAL AND BOOK OF PIANO ACCOMPANIMENTS, \$1.50

SHORT, easily remembered technical exercises of an unexacting character for developing the left hand and the bow arm are inserted at suitable intervals.

The exercise work is at once applied in melodies which furnish examples of previously studied technics.

A plainly printed finger-placing chart (full size, three-quarter size and half size), duly prepared for fixing upon the fingerboard is published separately. By using this device the pupil learns quickly to play in tune.

Violin Fingerboard Chart. Full size, three-quarter size and half size, each, 15 cents

FIRST LESSONS ON THE VIOLA

Price, \$1.50

THIS method follows closely the lines which have made Dr. Mitchell's previous works so overwhelmingly popular both for individual and class instruction. The viola, which has been rather inexplicably neglected, is especially well adapted to be taught successfully by the author's compact, ingenious and labor-saving treatment of the subject.

Viola Fingerboard Chart, 15 cents

CLASS METHOD FOR THE CLARINET

Price, \$1.50

A COMPLETE instructor for this most useful instrument, valuable equally for adult classes, for private instruction and for band training. Diagrams, drills, principles of true pedagogy agreeable pieces and orchestral quotations are included.

CLASS METHOD FOR THE CORNET

Price, \$1.00

ESPECIALLY intended for class teaching in the lower grade schools, and will also prove useful for schools of mixed grades. Primarily intended for use under the supervision of a teacher, but will also prove valuable as an elementary method for private study.

CLASS METHOD FOR THE SLIDE TROMBONE (Bass Clef)

Price, \$1.00

THIS method presents the slide positions in both Ordinary and Extra forms. The book is founded upon the general plan of the Cornet Method, and also contains a Credit Course of study.
